

Verulam School: Key Stage 5 CURRICULUM INFORMATION

Department: Geography
Subject Leader: Michael Toley

Subject Vision: Verulam geography aims to inspire pupils and develop their curiosity and fascination with the world and its people. The purpose of studying Geography is to appreciate the Earth as the homeland of humankind and to provide an insight for the appropriate management of resources and their use. We want pupils to understand the interdependence between man and nature in order to become a better global citizen. An enjoyment of space and place understanding is key. We aim to equip pupils with knowledge about diverse places, people, resources and natural and human environments, together with a deep understanding of the Earth's key physical and human processes. As pupils progress, their growing knowledge about the world will help them to deepen their understanding of the interaction between physical and human processes. The Department encourages our students to develop the scales of interconnection and change over time from place to space.

YEAR 12						
Term	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Topic/Unit Title	Coastal Landscapes Regeneration	Coastal landscapes Regeneration	Tectonic Hazards Globalisation	Tectonic Hazards Globalisation	NEA	Water Cycle Superpowers
YEAR 13						
Term	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Topic/Unit Title	Water Cycle Superpowers	Water Cycle Superpowers	Carbon Cycle Migration and sovereignty	Carbon Cycle Migration and sovereignty	Targeted revision
